

## HELP STUDENTS GET BACK INTO SCHOOL!

Since 2000, nearly 200,000 college students with drug convictions have been stripped of their financial aid. The U.S. House of Representatives is currently deciding whether to repeal this law or keep it on the books. Take action now by calling your representative and asking him or her to overturn this unfair and harmful penalty. Your voice counts!

**1) MAKE THE CALL:** Dial the Capitol Switchboard at (202) 224-3121. When the operator answers, tell them where you live and ask to be connected with your representative's office.

**2) SPEAK YOUR MIND:** When the receptionist in your representative's office answers the phone, politely say something like: "My name is [name] and I live in [city]. When the House revises the Higher Education Act soon, I hope that my representative will make sure to get rid of the harmful provision that takes away financial aid from college students with drug convictions. This law causes more, not less, drug abuse by blocking access to education."

**3) GET INVOLVED:** Visit [www.SchoolsNotPrisons.com](http://www.SchoolsNotPrisons.com) to find out how to get involved in Students for Sensible Drug Policy.
