

To: Ms Ghada Waly, Executive Director, United Nations Office on Drugs and Crime

7th March 2022

Dear Ms. Waly,

Subject: Open Letter on UNODC Youth Engagement in Decision Making

We the undersigned organisations are writing to you concerning the limited youth engagement in decision making by the UNODC, particularly at the Commission on Narcotic Drugs. Both the UNODC and the CND have made numerous commitments to provide meaningful participation of youth and youth related organisations in the development, implementation and evaluation of drug policies and programmes. This is strongly stated in the 2016 UNGASS Outcome Document, the 2019 Ministerial Declaration and Resolution 63/4.

We would like to commend the UNODC's Listen First Program for providing countries with a basis to promote a more compassionate approach to youth drug dialogue and education. We believe the core value of this programme is listening to young people, and we would like to see the UNODC implement this throughout its work, particularly in the areas of decision making and policy building. We would be delighted to see youth led organisations, particularly those led by directly affected communities, be consulted and involved in programs such as Listen First. We would also like to commend the UNODC's efforts with the Youth Forum. But as we have highlighted in our 2021 intervention and multiple times in Informal Dialogues, the Youth Forum falls short of meaningful engagement and the lack of transparency surrounding its purpose, selection process and methods cause concern.

Therefore, we wish to have a meeting with you Ms. Waly, to discuss how to build mechanisms for meaningful engagement of young people and youth organisations, not just for the youth but with the youth.

We call on the UNODC and member states to take action on the following issues:

1. Provide clear, transparent, and public processes for the selection of Youth Forum participants, including a set of guidelines and publicly available timeline.
2. Ensure the Youth Forum is a youth-led space, run by youth for youth.
3. Provide the Youth Forum and Youth Forum participants with timely and relevant access to the proceedings of the Commission, including opportunities to engage with the proceedings by making interventions and consulting delegations on youth issues.
4. Provide clear and transparent opportunities for youth organisations to engage with the Youth Forum.
5. Provide clear and transparent opportunities for youth organisations to engage with the UNODC.

6. Include young people and/or youth organisations in national delegations and all decision making delegations or committees.
7. Clearly outline the ways in which UNODC will work to achieve these changes, and the measures being taken to ensure that meaningful youth engagement is effectively embedded as a core aspect for all of the Office's work.

We are eager to work with the UNODC, those involved with the Youth Forum and member states to advise and assist in achieving meaningful youth engagement and participation. Below we have provided some resources and guidelines on youth civic engagement and it would be our pleasure to assist the UNODC or any other body with implementing these guidelines.

We are looking forward to discussing these concerns and recommendations with you.

Yours sensibly,

Jason Ortiz
